

LAHORE GRAMMAR SCHOOL 55 MAIN

A Level (Academic Years 2025-27)

### List of A Level Subject Choices/Combinations (2025-27)

- Students should go through the list of 110 available options carefully and select **ONE**. Options 1-3 have a fixed combination of 4 subjects.
- From Option 4 onwards, students may select an option from the Primary Subject Combination column and a 4<sup>th</sup> subject from the Option for 4<sup>th</sup> Subject column.
- If there is any confusion or query regarding subject choices, please feel free to contact the Vice Principal A Level at

[Farhana.mahmud@lgs.edu.pk](mailto:Farhana.mahmud@lgs.edu.pk) or the Education Advisors at [educationadvising@lgs.edu.pk](mailto:educationadvising@lgs.edu.pk) .

### General Suggestions:

- The ideal combination of subjects should comprise at least three **facilitating subjects** (Facilitating subjects are preferred by colleges and universities because they do not limit your options and therefore are considered higher in value than the non-preferred subjects).
- Depending on where you decide to go for university, A Level Chemistry and/or Biology could be a prerequisite to study Environmental Science at the undergraduate level.
- Depending on where you decide to go for university, A Level Psychology and/or Biology could be a prerequisite to study Psychology at the undergraduate level.
- Biology, Chemistry, Mathematics, Physics is the only combination which will keep all your options open for Medicine, Dentistry, all Engineering fields, Computer Science, Humanities, Social Sciences and the Arts.
- Mathematics is considered one of the most valuable A Level subjects by universities and is highly recommended in the advanced level regardless of what you wish to study at university.
- A Level Computer Science is **not recommended** without A Level Mathematics.

- A Level Further Mathematics is **not permitted** without A Level Mathematics.
- A Level English Language, A Level English Literature and A Level Urdu are **not recommended** without a fourth facilitating subject.
- A Level Information Technology and A Level Computer Science with A Level Mathematics can initially be taken with a fourth subject. However, because the CIE does not permit students to take both Information Technology and Computer Science in the same examination series, so a student will have to drop or audit either Computer Science or Information Technology.

#### Subject Requirements Specific to Pakistan:

- **Pre-Engineering Subject Requirements:** Chemistry, Mathematics, Physics *This includes the option of pursuing Computer Engineering and Software Engineering.*
- **Pre-Medical Subject Requirements:** Biology, Chemistry, Physics
- Computer Science may be pursued at **limited** local institutions with only A Level Mathematics as a prerequisite.
- There are no prerequisites to pursue the Humanities, Liberal Arts, Law or the Visual Arts at the undergraduate level in local institutions.

#### Subject Requirements Specific to Canada:

- **Pre-Engineering Subject Requirements:** Chemistry, Mathematics, Physics.  
*This includes the option of pursuing Computer Engineering and Software Engineering.*
- A Level Mathematics is required for **all** STEM and Business majors.

#### Subject Requirements Specific to the UK:

- **Pre-Medical Subject Requirements:** Chemistry, Biology and either Mathematics or Physics (or both) will keep all medical school options open.
- For almost all engineering courses the most important A Level subjects to study are Mathematics and Physics along with either Biology and or Chemistry depending on the type of engineering you want to pursue.
- To pursue a degree in Business or Economics most universities **require** A Level Mathematics.
- To pursue an undergraduate degree in Mathematics, several competitive universities prefer and at times even require A Level Further Mathematics along with A Level Mathematics.
- Urdu, IT and Global Perspectives may or may not be considered as a primary A Level subject for admission by competitive universities in the UK.
- A Level Law is **not recommended** for students planning to apply to Oxbridge for Law.

#### Subject Requirements Specific to the USA:

- Universities prefer a mix of the STEM and Humanities subjects.
- If you plan to apply to top tier schools, it is recommended you choose at least four facilitating subjects comprising both the sciences and the arts.
- If you wish to pursue a major in STEM, it is recommended to have at least two sciences including A Level Mathematics.
- A Level Law is **not** recommended for students applying to universities in the USA.

## SUBJECT COMBINATIONS

Option	Subject Combinations	Option for 5 <sup>th</sup> Subject (Choose ONE only)
1	Physics-Chemistry-Biology-Mathematics	Accounting/Art & Design/Computer Science/Economics/ English Language/Further Mathematics/ Global Perspectives & Research/History/Media Studies/Politics/Psychology
2	Physics-Chemistry-Mathematics-Further Mathematics	Accounting/Art & Design/Biology/Business/Computer Science/ Economics/English Language/English Literature/ Global Perspectives & Research/Law/Media Studies/Politics/Psychology/Urdu
3	Physics-Chemistry-Mathematics-Computer Science	Art & Design/Biology/Business/Economics/ English Language/Further Mathematics/Politics/Psychology/Sociology
		<b>Option For 4th Subject (Choose ONE Only)</b>
4	Physics-Chemistry-Biology	Accounting/Art & Design/Business/Economics/ English Language/English Literature/Global Perspectives & Research/History/Law/ Mathematics/Media Studies/Politics/Psychology/Sociology/Urdu
5	Physics-Chemistry-Mathematics	Accounting/Art & Design/Biology/Business/Computer Science/Economics/ English Language/English Literature/ Further Mathematics/Global Perspectives & Research/History/Law/ Media Studies/Politics/Psychology/Sociology/Urdu
6	Physics-Mathematics-Computer Science	Art & Design/Biology/Business/Chemistry/Economics/ English Language/Further Mathematics/ Global Perspectives & Research/Law/Politics/ Psychology/Sociology
7	Physics-Mathematics-Economics	Accounting/Art & Design/Biology/Business/Chemistry/Computer Science/ English Language/Further Mathematics/ Global Perspectives & Research/History/Information Technology/Law/Politics/ Psychology/Sociology/Urdu
8	Physics-Mathematics-Psychology	Accounting/Art & Design/Biology/Business/Chemistry/Computer Science/ Economics/English Language/ Further Mathematics/History/Law/Media Studies/Sociology/Urdu
9	Physics-Mathematics-Sociology	Accounting/Art & Design/Biology/Business/Chemistry/Computer Science/ Economics/English Language/English Literature/ Global Perspectives & Research/History/Information Technology/Law/

		Media Studies/Politics/Psychology/Urdu
10	Physics-Mathematics-English Language	Accounting/Biology/Business/Chemistry/Computer Science/Economics/ English Literature/Further Mathematics/ Global Perspectives & Research/History/Politics/Psychology/Sociology/Urdu
11	Physics-Mathematics-History	Art & Design/Biology/Business/Chemistry/Economics/ English Language/English Literature/ Global Perspectives & Research/Information Technology/Law/Media Studies/ Politics/Psychology/Sociology
12	Physics-Mathematics-Global Perspectives & Research	Accounting/Art & Design/Biology/Chemistry/Computer Science/Economics/ English Language/Further Mathematics/History/Politics/Sociology/Urdu
13	Physics-Mathematics-Media Studies	Art & Design/Biology/Business/Chemistry/Further Mathematics/History/ Psychology/Sociology/Urdu
14	Physics-Mathematics-Urdu	Accounting/Art & Design/Business/Chemistry/Economics/ English Language/Further Mathematics/ Global Perspectives & Research/Information Technology/Law/Media Studies/ Politics/Psychology/Sociology
