

**LAHORE GRAMMAR SCHOOL
55 MAIN GULBERG
A Level (Academic Years 2024-26)**

List of A Level Subject Choices/Combinations (2024-26)

- Students should go through the list of 111 available options carefully and select **ONE**.
- Options 1-3 have a fixed combination of 4 subjects.
- From Option 4 onwards, students may select an option from the Primary Subject Combination and a 4th/ 5th subject from the Option for 4th/5th Subject list.
- If there is any confusion or query regarding subject choices, please feel free to contact the Vice Principal A Level at Farhana.mahmud@lgs.edu.pk or the Education Advisors at educationadvising@lgs.edu.pk.

General Suggestions:

- The ideal combination of subjects should comprise at least three **facilitating subjects** (Facilitating subjects are preferred by colleges and universities because they do not limit your options and therefore are considered higher in value than the non-preferred subjects).
- **Environmental Management is an AS Level subject** and should be considered only as a fourth/ fifth subject. (A one-year course taken in A1 for which the CAIE AS Level EM examination is taken at the end of A1.)
- Depending on where you decide to go for university, A Level Chemistry and/or Biology could be a prerequisite to study Environmental Science at the undergraduate level.
- Biology, Chemistry, Mathematics, Physics is the only combination which will keep all your options open for Medicine, Dentistry, all Engineering fields, Computer Science, Humanities, Social Sciences and the Arts.
- Mathematics is considered one of the most valuable A Level subjects by universities and is highly recommended in the advanced level regardless of what you wish to study at university.

Subject Requirements Specific to Pakistan:

- **Pre-Engineering Subject Requirements:** Chemistry, Mathematics, Physics *This includes the option of pursuing Computer Engineering and Software Engineering.*
- **Pre-Medical Subject Requirements:** Biology, Chemistry, Physics
- Computer Science may be pursued at **limited** local institutions with only A Level Mathematics as a prerequisite.
- There are no prerequisites to pursue the Humanities, Liberal Arts, Law or the Visual Arts at the undergraduate level in local institutions.

Subject Requirements Specific to Canada:

- **Pre-Engineering Subject Requirements:** Chemistry, Mathematics, Physics.
This includes the option of pursuing Computer Engineering and Software Engineering.
- A Level Mathematics is required for **all** STEM and Business majors.

Subject Requirements Specific to the UK:

- **Pre-Medical Subject Requirements:** Chemistry, Biology and either Mathematics or Physics (or both) will keep all medical school options open.
- For almost all engineering courses the most important A Level subjects to study are Mathematics and Physics along with either Biology and or Chemistry depending on the type of engineering you want to pursue.
- To pursue a degree in Business or Economics most universities **require** A Level Mathematics.
- To pursue an undergraduate degree in Mathematics, several competitive universities prefer and at times even require A Level Further Mathematics along with A Level Mathematics.
- Urdu, IT and Global Perspectives may or may not be considered as a primary A Level subject for admission by competitive universities in the UK.

Subject Requirements Specific to the USA:

- Universities prefer a mix of the STEM and Humanities subjects.
- If you plan to apply to top tier schools, it is recommended you choose at least four facilitating subjects comprising both the sciences and the arts.
- If you wish to pursue a major in STEM, it is recommended to have at least two sciences including A Level Mathematics.
- A Level Law is **not** recommended for students applying to universities in the USA.

Option	Subject Combinations	Option For 5th Subject (Choose ONE Only)
1	Physics-Chemistry-Biology-Mathematics	Accounting/Art & Design/Business/Computer Science/Economics/ Environmental Management/English Language/English Literature/ Global Perspectives & Research/History/Information Technology/ Law/Media Studies/Psychology/Sociology/Urdu
2	Physics-Chemistry-Mathematics-Further Mathematics	Art & Design/Business/Computer Science/Economics/Environmental Management/English Language/Global Perspectives & Research/ History/Information Technology/Law/Media Studies/Psychology/ Sociology/Urdu
3	Physics-Chemistry-Mathematics-Computer Science	Art & Design/Biology/Business/Economics/ Environmental Management/ English Literature/Further Mathematics/ Global Perspectives & Research/Information Technology/Law/ Media Studies/Psychology/Sociology/Urdu
		Option For 4th Subject (Choose ONE Only)
4	Physics-Chemistry-Biology	Accounting/Art & Design/Business/Computer Science/Economics/ Environmental Management/English Language/English Literature/ Global Perspectives & Research/History/Information Technology/Law/ Mathematics/Media Studies/Psychology/Sociology/Urdu
5	Physics-Chemistry-Mathematics	Accounting/Art & Design/Biology/Business/Computer Science/ Economics/English Language/English Literature/ Further Mathematics/History/Information Technology/Law/ Media Studies/Politics/Psychology/Sociology/Urdu/ Global Perspectives & Research/Environmental Management
6	Physics-Mathematics-Computer Science	Art & Design/Biology/Business/Chemistry/Economics/Environmental Management/English Literature/Further Mathematics/ Global Perspectives & Research/History/Information Technology/Law/Media Studies/Psychology/Sociology/Urdu

7	Physics-Mathematics-Economics	Accounting/Art & Design/Biology/Business/Chemistry/Computer Science/English Language/English Literature/Further Mathematics/History/Information Technology/Law/Media Studies/Politics/Psychology/Sociology/Urdu/Global Perspectives & Research/Environmental Management
